Why BabyTree Projects

GIVE US WINGS

SOPHIA SALY

- WALKATHON -

2013

BabyTree Projects is a grassroots Australian organisation providing quality education for some of the most inspirational children in rural Cambodia, who need your support. Starting in 2007, we now have volunteers raising funds for our work in Japan, Canada, the USA and Australia.

100% of all funds raised by BabyTree Projects go to the projects in Cambodia. We have built primary schools and 1 secondary school in rural Cambodia, and this year we are building a school dedicated to the life and memory of Sophia Saly...

Sophia Saly was a founding member of BabyTree Projects Australia and was an important part of BabyTree's vision, achievements and successes. We wish to memorialise the unique spirit in which Sophia lived her life, in this project. Even though she has left this world for the next, her spirit and legacy remains strongly with us.

All of the funds raised from this walkathon goes towards the building of the Sophia Saly School on a beach (Kep Province, Cambodia). This will include the construction of a three classroom building, toilets, a water well and on-going support for teacher training, scholarships and an enriched curriculum.
