

Accountants that specialise in Business Analytics

Established in 2002, Infocube is a leading Australian management accounting consultancy specialising in Business Analytics, Business Intelligence and Performance Management.

Our consultants have worked in senior finance and management roles across a variety of business sectors. We have a comprehensive understanding of the demands on companies in the competitive business environment. We specialise in solving complex issues in Performance and Financial Management to give you:

- **Better visibility and control of your processes**
- **Improved productivity across your team(s)**
- **Increased planning effectiveness**
- **Reduced governance risk**

Our Services

We specialise in the use of Cognos software to help organisations transition from the problems of long reporting times, complex frameworks and multiple versions of the truth. As an IBM Premier Partner with over 10 years' experience, we understand what it takes to help you achieve excellence in your business.

We have the expertise, resources and experience to deliver:

- **Business intelligence, reporting & analysis**
Track performance against business objectives to identify performance gaps and perform 'what-if' scenarios
- **Corporate planning, budgeting & forecasting**
Replace rigid budgets with continuous planning and more frequent forecasting

- **Performance management**
Link financial and operational plans through driver-based models
- **Complex financial statement reporting**
Ensure the quality and accuracy of financial information for timely, sustainable regulatory compliance
- **Consolidation and Group Accounting**
Improve financial processes and controls, especially in the final stages before disclosure
- **Predictive Analytics**
Connect key financial processes to core business analytics capabilities

The Infocube Difference

Uniquely Skilled

Our consultants are led by a team of qualified accountants and business professionals, highly experienced in management and financial accounting – providing you with a unique consulting combination. Having worked in senior financial management roles, our consultants understand many of the challenges facing CFOs in today's demanding business environment.

Depth of Experience

Infocube's unparalleled experience will guide you to achieve optimum performance, improved productivity and increased alignment with your business processes.

Thought Leadership

We are leaders in corporate accounting and business analysis, and regularly present to professional groups including CPA Australia and the Australian Shared Services Group.

Professionalism

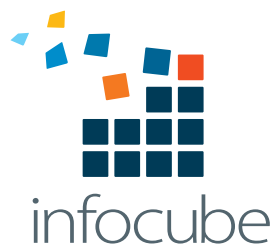

We implement according to both IBM's published best practices for Business Analytics and our own TM1Tutorials.com best practice guidelines.

TM1tutorials.com
